Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002

Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003

Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005

Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Texas Commission on Environmental Quality - Agency Central Registry (TX-TCEQ ACR) is a computer application that allows the Texas Commission on Environmental Quality (TCEQ) to use a single, centralized area to record common information, such as the company names, addresses, and telephone numbers of those the TCEQ regulates. It also contains additional IDs (permits, registrations, authorizations, etc) and their status.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**CALIBER COLLISION CENTERS (Continued)**

**1004784336**

Waste Code: F001  
Waste Description: The Following Spent Halogenated Solvents Used In Degreasing: Tetrachloroethylene, Trichloroethylene, Methylene Chloride, 1,1,1-Trichloroethane, Carbon Tetrachloride And Chlorinated Fluorocarbons; All Spent Solvent Mixtures/Blends Used In Degreasing Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F002  
Waste Description: The Following Spent Halogenated Solvents: Tetrachloroethylene, Methylene Chloride, Trichloroethylene, 1,1,1-Trichloroethane, Chlorobenzene, 1,1,2-Trichloro-1,2,2-Trifluoroethane, Ortho-Dichlorobenzene, Trichlorofluoromethane, And 1,1,2, Trichloroethane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Halogenated Solvents Or Those Solvents Listed In F001, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F003  
Waste Description: The Following Spent Nonhalogenated Solvents: Xylene, Acetone, Ethyl Acetate, Ethyl Benzene, Ethyl Ether, Methyl Isobutyl Ketone, N-Butyl Alcohol, Cyclohexanone, And Methanol; All Spent Solvent Mixtures/Blends Containing, Before Use, Only The Above Spent Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends Containing, Before Use, One Or More Of The Above Nonhalogenated Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or More Of Those Solvents Listed In F001, F002, F004, And F005; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Waste Code: F005  
Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene, 2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Highlights:  
College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM

standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.

| Property Description:           | The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| Highlights:                     | College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing. |

Name: COLLEGE HOUSES  
Address: 707 W. 21ST ST  
Recipient name: Austin, City of  
Grant type: Assessment  
Region: 6  
Property Number: Not reported  
Parcel size: 2  
Latitude: 30.284028  
Longitude: -97.745713  
HCM Label: Not reported  
Map Scale: Not reported  
Point of Reference: Not reported  
Highlights: College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.

| Property Description:             | The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing. |

Highlights: College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.

| Property Description:             | The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing. |

| Highlights:                   | College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing. |

| Property Description:             | The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing. |

Highlights:

College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.

| Property Description:             | The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.                                                                                                                                                         |

| Highlights:                       | College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A |

vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.

| Property Description:           | The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with wooden walkways surrounding a central courtyard of green space. This creative architecture lends 21st Street Coop a true feeling of community, making it much more than affordable student housing.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| Highlights:                     | College Houses provides affordable housing for college students near the University of Texas at Austin. They are looking to expand and renovate their 21st Street cooperative. To complete the renovations, they have applied for HUD funding through the City of Austin Neighborhood Housing and Community Development (NHCD), which requires a Phase I ESA as part of the due diligence in the application process. The Phase I ESA was completed in April 2019. The Phase I ESA identified historical dry cleaners in the vicinity of the property, and subsequent concerns about potential subsurface vapor issues. A vapor encroachment survey was recommended to determine if the property was affected by volatile organic compounds from dry cleaners. Samples were collected and analyzed following the ASTM standard (E2600) using City of Austin funds. None of the samples analyzed had exceedances, and no further action is anticipated at this time. Former Use: The 21st Street Coop was built in 1974 as the first structure in Austin designed and constructed specifically for use as a student housing coop. This multi-family structure features a "treehouse" inspired design, with five separate buildings joined with |

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110038743820

[Click Here for FRS Facility Detail Report:](#)

**Environmental Interest/Information System:**

US EPA Assessment, Cleanup and Redevelopment Exchange System (ACRES) is an federal online database for Brownfields Grantees to electronically submit data directly to EPA.

Registry ID: 110070788678

[Click Here for FRS Facility Detail Report:](#)

**Environmental Interest/Information System:**

SSTS (Section Seven Tracking System ) evolved from the FIFRA and TSCA Enforcement System (FATES). SSTS tracks the registration of all pesticide-producing establishments and tracks annually the types and amounts of pesticides, active ingredients, and related devices that are produced, sold, or distributed each year.
